

# Connectivity That Empowers Teachers to Teach and Students to Learn

School districts trust Juniper for seamless networking

Build a foundation for secure, highly reliable connectivity

[Learn why](#) →

## K-12 networking

### Uninterrupted connectivity for non-stop, flexible learning

Juniper Networks AI-Native Networking provides school districts with an agile foundation for secure and highly reliable connectivity to ensure uninterrupted teaching and learning.

## The capabilities you need

### AI-Native networks automate connectivity

Eliminate complexity by simplifying and automating networking operations. Expand what your network can do to support student well-being, fortify physical and digital security, and maximize the productivity of your limited district resources.

“The wireless experience with **Mist** is night-and-day different.”

Executive Director of Technology at Coppell ISD

#### WiFi that everybody loves

Dependable connections and coverage for quality teaching and learning

- Ten-fold improvement in wireless coverage ([Newport News Public Schools](#))
- Up to 90% reduction in network-related trouble tickets ([Newport News Public Schools](#))

#### AIOps that IT teams love even more

Juniper's AI-Native Networking Platform automates deployment and management to maximize district resources

- 85% fewer truck rolls for onsite support ([Coppell ISD](#))
- 9x faster deployments ([Long Beach USD](#))

#### Indoor location services expand the campus

Protect students through location tracking and controlled network access  
Intuitive self-service classroom connections for teachers

#### Protection for student privacy, school district data

User data protection to maintain district and school reputation

- Built on a Zero Trust architecture
- Secure Edge for consistent user, device, and application security policies
