

## Chapter 41

# Using SRC Tools

The SRC software provides a suite of tools to configure and monitor SRC components and processes. Table 25 lists the major configuration and monitoring tools and provides links to where you can find detailed information about the applications.

**Table 25: SRC Configuration and Monitoring Tools**

<b>SRC Application</b>	<b>Information About Application</b>	<b>Platform Support</b>
Local configuration tool	<i>Chapter 42, Configuring Local Properties</i>	Solaris platform only
